## **THE NINE PRINCIPLES OF THE LAW OF TRUTH**

- 1) There is a First Cause; whether we call it God, Universal Force, Divine Mind, or by any other name, it is the same First Cause, or Creator.
- 2) The Creator has an Intelligence, which operates through Order and Principle.
- 3) This Intelligence, through Order and Principle, is all powerful, all knowing, and everywhere at once.
- 4) This Intelligence, operating through Order and Principle, is the power of Truth, which is whole and complete, encompassing the positive and the negative of all things: the good, the bad, life and death.
- 5) Everything created in the universe embodies this Truth, through Intelligence, Order, and Principle, in accord with its nature.
- 6) Humankind was created in the nature and image of the Creator, and endowed with certain inalienable rights and powers by this Creator.
- 7) These rights and powers of humankind are maximized when they are congruent and harmonic with the power of Truth as established by the Creator.
- 8) The universal laws of success are an integral part of the power of Truth, which guides humankind to a harmonic relationship with the universe and the Creator.
- 9) When these elements of Truth are studied, practiced, internalized, and mastered, you will **KNOW** the Truth, and you will be free.
